

AU175 FLATTENING BINDER

VERSATILE FLATTENING BINDER

AU175 from Cromax is a flattening binder based on acrylic copolymers that is suitable for most 2K topcoat and clearcoat qualities from Cromax. It allows for easy preparation of flat 2K topcoat colours and 2K clears in different ratios, depending on the required gloss level.

MAIN BENEFITS

- Based on acrylic copolymers
- Ready to use
- VOC-compliant
- Sufficiently flexible for semi-flexible plastic parts
