

CENTARI 5035

ALL-ROUND SOLVENTBORNE REFINISHING PERFORMANCE

Centari 5035 from Cromax is a VOC-compliant, high-solids direct gloss topcoat with high opacity for single application. As it meets the 2004 EU Product Directive regulations, Centari 5035 gives you maximum performance with low environmental impact.

Centari is unique in its versatility and ease-of-use. A single mixing unit supplies all solventborne paint qualities – medium- and high-solids, topcoats and basecoats. It is based on the proven concentrated Centari MasterTint technology.

MAIN BENEFITS

- Easy to use; minimal application training required
- Fast drying for quicker throughput
- Excellent hiding and coverage to save you time
- Fully VOC-compliant
- Suitable for spot, panel and overall repairs

Centari includes a range of advanced colour tools for accurate colour matching. Over 125,000 colour formulations in solid, metallic and pearlescent are available and we continue to expand our Centari colour library.
