CHROMALAMP

DISCOVERING COLOURS AND EFFECTS IN A NEW LIGHT

Chromalamp is the hand-held daylight lamp from Cromax designed to use throughout the whole refinishing process.

- LED Technology
- Two daylight settings, each with three intensity levels
- Optimal assessment of colours and effects
- Easy to handle

Different light sources
ChromaLamp has two different light sources: one for natural light and by touching a button for the second light source it switches evening light. This helps the painter to discover and to prevent colour differences due to metamerism when selecting the colour formula.

Energy saving
With the energy-saving LEDs, the powerful battery and the ergonomic handling of the lamp, Chromalamp practical tool for all professional bodyshops.
