LET'S GET TO WORK

We have more than 50 Cromax Training Centres worldwide where you can perfect your skills. Not just in achieving a better paint job, but also in marketing, planning, bodyshop management, and Health, Safety and Environmental aspects.

In addition to that, we also provide advanced e-learning training options that are very cost effective.

All training activities for Europe, the Middle East and Africa are coordinated by our Cromax Training Centre in Mechelen, Belgium. This centre of excellence works closely with our product development, marketing, and sales departments. By coordinating all our activities, it means that our EMEA training leaders get regular instruction and we ensure the course, no matter where they are carried out, are all of the same high-quality.

Many of our training modules take place in our dedicated Cromax® Training Center.

OUR TRAININGS

Improve your refinish skills with one of our hands-on training courses.
