Chromalamp is the hand-held daylight lamp from Cromax designed to use throughout the whole refinishing process.

- **LED Technology**
- **Two daylight settings, each with three intensity levels**
- **Optimal assessment of colours and effects**
- **Easy to handle**

**Different light sources**

ChromaLamp has two different light sources: one for natural light and by touching a button for the second light source it switches evening light. This helps the painter to discover and to prevent colour differences due to metamerism when selecting the colour formula.

**Energy saving**

With the energy-saving LEDs, the powerful battery and the ergonomic handling of the lamp, Chromalamp practical tool for all professional bodyshops.

Go to our CromaStore and order your ChromaLamp online.
