

# CROMAX PRO

## ACCELERATE YOUR PRODUCTIVITY

The Cromax Pro paint system is designed especially for professional bodyshop performance. Based on cutting-edge technology and formulated for optimal quality and maximum efficiency, the Cromax Pro paint system improves your productivity and helps you to increase your profitability.

With its complementary products for every step of the repair process, the Cromax Pro systems enables you to achieve outstanding results. The systems' products - surfacer, basecoat and clearcoat - lower your material consumption and provide superior colour accuracy.

## THE PERFECT SURFACE FOR PERFECT PAINTWORK

Cromax Pro Surfacer improves the adhesion between the substrate and the basecoat. It ensures a durable and smooth finish that is easy to sand yet resistant to sand-through on corners and edges.

### MAIN BENEFITS

- Can be used as a sanding as well as a non-sanding surfacer
- Based on highly-reactive hydroxy-functional acrylics and polyesters
- Wide application window including 1.5 coat application
- Can be combined with existing activators and thinners, including AR activators
- Part of the ValueShade concept for optimal basecoat coverage
- Dries fast and cures quickly with minimal IR intensity
- Conforms to EU directive 2004/42/EC

Cromax Pro Surfacer saves a considerable amount of time and effort, increasing bodyshops' productivity and profitability.
