

CC6600 CROMAX PRO STAR CLEAR

EXCELLENT APPEARANCE ON CROMAX PRO BASECOAT

CC6600 from Cromax is the optimal clear for use over Cromax Pro Basecoat, combining outstanding hold-out and gloss retention with ease of application and drying speed to boost bodyshop productivity. CC6600 was developed for a 1.5 coat application and is suitable for all repairs.

FEATURES

- formulated for use over Cromax Pro Basecoat
- 2K acrylic co-polymer clear with unique, patented star polymer technology
- wide application window
- use with Varispeed Ultra
- economic 1.5 coat application – 2 coat application is possible
- efficient drying performance
- VOC compliant, solvent-based formulation

BENEFITS

- smooth, robust high-build finish
- state-of-the-art shine and durable gloss
- spot, panel and overall repair
- fast drying of spot repairs on vertical parts
- saves time and product
- fast throughput increases productivity
- conforms to current environmental legislation
