

825R CHROMATE FREE WASH PRIMER-SURFACER

UNIVERSAL WASH PRIMER-SURFACER

825R from Cromax is a versatile, chromate free 1K primer-surfacer, available in ValueShade 2 (off white), and can be darkened to ValueShade 4 (medium grey) when required. 825R is VOC compliant and can be used as an etching or filling wash primer.

FEATURES

- Isolates bare metal on any size paint-job
- Excellent etching properties on metals
- Good filling properties
- Works with standard Cromax thinners
- Can be tinted

BENEFITS

- Perfect for spot, panel and overall repairs
- Very good corrosion and blistering resistance
- Eliminates lifting, sand scratches and swelling
- Highly productive; reduced stock level
- Part of the ValueShade concept
