## 4001S— 4004S - 4007S ULTRA PRODUCTIVE PRIMER

UNIVERSAL VALUESHADE SURFACERS

4001S, 4004S and 4007S from Cromax are premium low-emission very highly productive 2K surfacers for sanding applications. 4001S, 4004S and 4007S are VOC compliant and can be mixed to all seven shades of ValueShade grey for optimum topcoat coverage.

## Features

- Composition based on functional acrylic co-polymer
- It is non-iso cyanate based primer
- Isolates small sand throughs of steel and Zinc.
- Very fast drying

## Benefits

- Ultra productive, dry to sand in less than an hour
- Perfect for spot and panel repairs
- High solids technology resulting in less consumption
- Optimal under coat colour for better coverage of any topcoat colour

Passenger Car Use
